

## ServerWare Professional Services offerings for

Optimizing your Red Hat Linux and JBoss Enterprise Middleware deployment can be challenging without a certified, experienced team to assist with implementation, upgrades or migration projects. ServerWare's Professional Services team will assess, recommend and implement "best practices" for your systems; reducing risk, accelerating completion and maximizing product performance. Your IT resources are then able to refocus on accelerating in-house project completions, optimizing your IT budget spend.

Serverware is a Certified Advanced Red Hat Partner and one of the very few to be JBoss certified (JBCAA). We hold certifications for Red Hat Linux (RHCE) and Red Hat Virtualization (RHCVA). We are also an Oracle Platinum Partner and are certified for Oracle Enterprise Linux.
